## A Word From Your Pastor...

**Good News!** Sometime ago we were made aware that the Government had set aside grant funds to help assist non-profits in the area of security. Following their guidelines and having experienced friends to help, we faithfully carried out our best effort by getting the appropriate professional suggestions with not a lot of expectation as many churches have done this also without receiving anything. To our surprise we have been awarded the maximum possible of a **\$150,000 grant** to perform what we have been counseled to do first. This will make our church safer! We will not be releasing information on all of the upgrades or modifications as they will take a certain amount of time to find the right vendors and get the work done. We can rejoice in the great work our security team has performed on our behalf and give them our cooperation and appreciation!
